8" Seat End SLWB-8E Seat Support SLWB-8S

11" Seat End SLWB-11E Seat Support SLWB-11S

DESIGNER NOTES

The Skyline series emphasizes the simplicity of many modern architectural styles, and the top wall-mounted bench is no different. Elegant in its design and simple in its execution, this bench system is customizable to any top wall mounted application. Most commonly installed on top of a concrete wall feature or plinth, this type of bench can be incorporated almost anywhere alongside buildings and architectural features. Each bench requires 2 ends (BVWB-11E). The number of supports (BVWB-11S) required is determined by the total length and dividing it up to a maximum span distances of 20". For example, a 72" bench would have 3 supports 18" apart from each other and a 60" bench would have 2 supports 20" apart from each other. The lumber comes in 3 lengths 6ft, 10ft and 12ft. The seating utilizes 3 boards deep giving a comfortable 17" seating surface.

AVAILABLE RECYCLED PLASTIC LUMBER COLOURS

PRODUCT SPECIFICATIONS

Products Re-Plast Avantage +™ Recycled Plastic Slats
Planks Actual Size 1 7/16 x 5 3/8
