DESIGNER NOTES

With all of our site furnishings we try and create a sense of community. Outdoor coffee tables combined with benches and other seating options are a great way to achieve this. Coffee tables can provide a staging area for people to gather around, encouraging conversation and interaction. The Urban Form coffee table creates an inviting outdoor space that mimics an indoor environment where you can relax, stop for a coffee, put your laptop down, or put your feet up. Alongside the rest of our Urban Form family this table works splendidly – although it could be used with many other site furnishings and still be a good match due to its elegant but understated design.
