

URBAN FORM PARK BENCH - ALL ALUMINUM

DESIGNER NOTES

The reasoning behind developing this all-aluminum version of our popular Urban Form bench was two-fold. Firstly, to provide more options. The all metal gives a slick, modern look as opposed to plastic wood or traditional lumber. Secondly, from a maintenance perspective, to minimize the opportunity for vandalism. Specifically: graffiti and carving. Should damage occur, touching up the metal is easy. The tubular metal seating surface is fitted to the frame with a no-weld design making individual bars simple to replace. In addition, the tubular aluminum bars are much stronger than typical slats leading to a very robust bench overall! As with the rest of our Urban Form series, the simple lines and consistent dimensions complement any contemporary setting.
