DESIGNER NOTES

The Skyline Curved Bench began as a customer request for a full circular bench. A fully manufactured complete circle would be difficult to ship and handle, so the obvious solution was to design a sectional curved bench system that would yield many different shapes and configurations (see installation gallery and drawings for examples). Settling on thirds for the sections, we achieved a convenient base length and an elegant, balanced look. The aluminum frame is both light and sturdy, while the tightly spaced 2"x3" lumber provides an excellent seating surface. Optional back rest sections can be mounted to suit.(see product gallery)
