DESIGNER NOTES

We had a request from one of our distributors to design a bench specifically for a tender they were awarded. The tender though had specifications that did not meet any of benches we had, at the price point they needed. We took on the challenge and came up with this design. The Aylesbury bench borrows design cues and components from a couple of our other benches allowing us to maintain a comfortable, stable seating surface at the same time capitalizing on reduced fabrication time and material cost. Can you figure out which benches we borrowed these from?

The name of the bench comes from a town in England where the distributors family originated prior to coming to Canada.
