

Beselt Backless Wall Top Bench

Model Number

BSWTB-6 (6 ft)
BSWTB-5 (5 ft)

Urban and modern, the Beselt Wall Top Bench adds a clean and contemporary look to most park settings. A unique two-piece design makes the bench a cinch to install. It can either be secured to concrete by using our regular fastening system or our innovative "PEG" system. In both cases the base separates from the main section that holds the lumber. To install using the "PEG" system, separate the base from the main section, mark where the pegs line up on the concrete, drill down, fill with epoxy and then set the pegs into the epoxy. Level and let set. The main section slides over and is secured by the bolts on the ends and the fasteners that hold the boards are hidden. The seat sections can be easily removed for cleaning and removed and replaced if any boards are vandalized. The design is simple, sharp and chic.

Material Specifications

Marine Grade Aluminum Frame
Stainless Steel Hardware
Super Durable Powder Coating
100% Recycled Plastic Slats
Western Red Cedar
Accoya Modified Pine
Hardened Bamboo

Customized Solutions

Custom powder coating (Setup Charges May Apply)
