

LOOP 2 SPACE BIKE RACK

Model Number : LBRP-1

DESIGNER NOTES

Providing accommodation for up to 2 bikes, the Loop Bike Rack is a simple yet familiar design. Extremely durable and functional, this bike rack looks great alongside classic or contemporary landscape architecture. What makes our Loop Bike Rack design unique are the materials we use in its construction. Traditional steel bike racks tend to be heavy and not very corrosion resistant over time without galvanization. Our new thick walled aluminum pipe design provides similar strength qualities to steel ensuring safe storage of the bikes while the light weight corrosion resistant aluminum ensures it looks great over years of service.
