

Modena Chair

Model Number

M-2

As a result of the popularity of the Modena Bench, a 2 ft chair version was created to bring the same modern appeal to more intimate settings. Ideal for courtyards, small gathering areas, or quiet reflection zones, the Modena Chair maintains the original design's distinctive character in a more compact form. With its signature one-piece curvilinear arm and leg frame, the chair offers a striking silhouette that stands out while still providing ergonomic comfort. The tight board pattern and uniquely angled seat and backrest preserve the warmth and restfulness that made the bench so well-loved.

Just like its larger counterpart, the Modena Chair features in-house cast leg ends made from 100% recycled aluminum and is fully welded for strength and durability. It's the perfect choice when you want contemporary design and sustainable craftsmanship on a more personal scale.
