CUSTOMIZED SOLUTIONS

DESIGNER NOTES

When concrete is not an option, the base in-ground anchor, made of durable and heavy-duty plastic will provide a secure and solid base for all of our site furnishings. It's easy to instal using readily available compacted granular base course aggregate. The anchor can be used in a variety of applications. Grassy areas can stay pristine with the anchor placed below the ground's surface. It can also be placed below or be imbedded into asphalt and provide secure mounting between pavers for a clean and neat look. The top board is custom cut to match the feet of the product to ensure a perfect fit and can be color matched to the lumber of the site furnishing. Available in three style options, the anchor will not rot, splinter and so will stand the test of time.

PRODUCT DIMENSIONS

Height	10 inches / 254 mm
Length	18 3/4 inches / 476 mm
Width	3 3/4 inches / 95 mm
Weight	15 1/2 lbs / 7 kg
