

THE "FOREST" REGULAR OUTHOUSE BUILDING

Model Number : FSTB-1 (Regular)

DESIGNER NOTES

The "John" Outhouse is a building that was designed at the request of parks departments and addresses many of the issues typically associated with outdoor latrine buildings in semi-remote locations. These include transportation and handling, assembly, and the use of materials that require minimal or no maintenance over several years, in a wide range of diverse environments. The "John" meets and exceeds these expectations, while providing a very comfortable and memorable user experience. Strategically designed as a modular system, the individual components can be easily carried into semi-remote locations and be put together with minimal tools at a fraction of the traditional wood and concrete alternatives. The building is made from sturdy lightweight powder coated aluminum components, making it resistant to corrosion. The tongue-in-groove recycled plastic lumber slats will not rot or absorb moisture, and can be sprayed with bleach or disinfectant without damage. After cleaning, excess water simply drains out the sides from the raised walls. They fit seamlessly into channels with only a few hidden fasteners also making the unit theft and tamper proof. Lack of lighting normally associated with these types of structures has also been addressed with a translucent one-piece roof. It provides plenty of light but it does not compromise its strength and acts as an effective barrier against sun, wind and rain. The one-piece roof structure caps the entire unit providing ample protection from the elements and locks the whole structure together making it extremely solid. With three sizes available, the "John" can provide a solution for every application and every user group. . The name John, although seemingly quite applicable for the application, is actually named after the CEO and President of Wishbone. It is the only product, of the dozens that we have, where his name actually worked.

AVAILABLE RECYCLED PLASTIC LUMBER COLOURS

Black Grey Redwood Sand Walnut

PRODUCT SPECIFICATIONS

100% Recycled Plastic Tongue and Groove Boards

Made from post-consumer and post-industrial waste plastic, the material is ecologically friendly and attractive. For this application the boards provides maximum durability with minimum maintenance required over their lifespan. Boards will not split or warp as well will not absorb moisture making them easy to clean with disinfectants, keeping germs and odors under control.

Colours Available: Sand, Gray, Walnut, Redwood, Black

Durable Powder Coated Cast Aluminum Frames

Standard Colours: Brown Slate, Victor Ridge II, Nordic Lichen, Timeless Rust, Grey Gold, Textured Silver, Precious Sand, Groovy Red, Black Textured, Earth Clay, Noble Bronze, Modern Khaki, Flame Red, Pastel Orange, Signal Violet, Traffic Yellow, Ultramarine Blue, Water Blue, Yellow Green

Long Lasting Stainless Steel Hardware

Heavy Duty Door Hinge Hardware

Super Durable UV stabilized Polycarbonate Roof

Adjustable Aluminum Vent Stack Support

Easy assembly for 2 people in less than 2 hours

Shipping Dimensions

Ships unassembled on a 84L x 48W x 28H pallet. Total Weight 860 lbs

CUSTOMIZED SOLUTIONS

Custom Powder Coating (Setup Charges May Apply)

Toilet, urinal, toilet paper dispenser, sanitizer dispenser and vent stack are not included. They can be provided if requested.

Corner Urinal in White Model #WCU-14

All Aluminum Floor. (ALF-S)

Waterless Toilet System by Toilet Tech. Find out more <https://www.ToiletTech.com>

PRODUCT DIMENSIONS

Total Height	97.5 inches / 2476mm
Depth	55 inches / 1397mm
Width	48 inches / 1219mm
Weight	800lbs / 363kg

RECYCLED CONTENT

65% RECYCLED CONTENT BY WEIGHT
100% RECYCLABLE

100% Canadian Made
