

THE "JOHN" REGULAR OUTHOUSE WITH TOILET TECH EXTENSION

Model Number : PTR-6-TT

DESIGNER NOTES

The "John" Regular outhouse with the Toilet Tech extension and the system it houses are uniquely tied together with one commonality: Human Waste. It captures both aspects of waste in what we throw away and what we eat!

Wishbone has partnered with Toilet Tech to create an effective solution in helping divert both these aspects of human waste through innovative design and state of the art waterless composting technology for remote back-country locations.

The boards are made from 100% recycled plastics and divert over 500 lbs of consumer and post-consumer waste plastics from landfills and oceans. The Toilet Tech system it houses deals with the other. Due to the sensitive nature of the back-country environment, it needs either be removed or effectively composted. The Toilet Tec's back country toilets divert urine from solid waste. The solid waste is then conveyed up a foot powered belt to fall into a shallow open bottom vault for onsite decomposition or into collection bags for easy removal.

AVAILABLE RECYCLED PLASTIC LUMBER COLOURS

Black Grey Redwood Sand Walnut

100% Canadian Made

Wishbone Ltd. provides an extended 10 year limited warranty from the date of invoice.

PRODUCT SPECIFICATIONS

100% Recycled Plastic Tongue and Groove Planks

Made from post-consumer and post-industrial waste plastic, the material is ecologically friendly and attractive. For this application the boards provides maximum durability with minimum maintenance required over their lifespan. Boards will not split or warp as well will not absorb moisture making them easy to clean with disinfectants, keeping germs and odors under control.

Colours Available: Sand, Gray, Walnut, Redwood, Black
