

TURISNO WASTE RECEPTACLE

Model Number : TOTR-30

DESIGNER NOTES

The Turisno Waste Receptacle is functional artwork at its best. This modern, all-metal, pedestal style design closely matches the Turisno Park Bench. The 6" opening limits local household waste and a locking front door mechanism provides convenience for maintenance people. The curved top is both aesthetic and purposeful by deflecting water away from the interior of the unit. The front, back, and side panels are removable and uniquely customizable with individual colour powder coating or advertising. This feature also makes it easy to replace worn or damaged panels. Available with or without a foot pedal mechanism.
