

# Whale Tail Bench

Model Number

WT-76A

Powder Coated in Nordic Lichen

This functional art design was created by artist Jeff King. The concept is to use artwork in a functional application and the Whale Tail Park Bench is the first in a series of benches that explores the idea. Perfect as an addition to coastal areas, seaside lookouts, watermarks, or any other waterside setting, this is an amazing statement, conversation piece, and photo opportunity. Enhance your project with this unique piece and stand back to see the comments and conversations it evokes. The tail spans 6 feet across and can comfortably seat 2-4 adults. These take some time to make so please keep in mind that there are longer than normal lead times.
